

OS Semester Examination 2025

Operating Systems (OS) · Semester Examination · 2025

Max. Marks	75	Time	3 hours
------------	----	------	---------

Answer ALL questions from Part A and any FIVE from Part B.

Part A (25 marks)

1. Write short notes on Operating System Structures. (5 marks)
2. Compare Scheduling Criteria with FCFS, SJF and Round Robin. When would you prefer one over the other? (5 marks)
3. Explain Deadlock Characterization with a neat diagram and a suitable example. (5 marks)
4. What is meant by Contiguous Allocation? Discuss its advantages and limitations. (5 marks)
5. Explain File Concepts with a neat diagram and a suitable example. (5 marks)

Part B

1. Explain Operating System Structures with a neat diagram and a suitable example. (Unit 1)
2. Discuss the role of System Calls in Introduction & Process Management. (Unit 1)
3. Define Scheduling Criteria. Derive or justify the key properties involved. (Unit 2)
4. Explain FCFS, SJF and Round Robin with a neat diagram and a suitable example. (Unit 2)
5. Explain Deadlock Characterization with a neat diagram and a suitable example. (Unit 3)
6. What is meant by Resource Allocation Graph? Discuss its advantages and limitations. (Unit 3)
7. Discuss the role of Contiguous Allocation in Memory Management & Virtual Memory. (Unit 4)
8. Compare Paging with Translation Lookaside Buffer. When would you prefer one over the other? (Unit 4)
9. Write short notes on File Concepts. (Unit 5)
10. Write short notes on Directory Structures. (Unit 5)
