

CN Semester Examination 2023

Computer Networks (CN) · Semester Examination · 2023

Max. Marks	75	Time	3 hours
------------	----	------	---------

Answer ALL questions from Part A and any FIVE from Part B.

Part A (25 marks)

1. What is meant by OSI Reference Model? Discuss its advantages and limitations. (5 marks)
2. Compare Framing with Error Detection. When would you prefer one over the other? (5 marks)
3. Discuss the role of IPv4 Addressing in Network Layer & Routing. (5 marks)
4. Explain UDP with a neat diagram and a suitable example. (5 marks)
5. Illustrate DNS with a worked example. (5 marks)

Part B

1. Discuss the role of OSI Reference Model in Introduction & Physical Layer. (Unit 1)
2. Compare TCP/IP Model with Switching Techniques. When would you prefer one over the other? (Unit 1)
3. Illustrate Framing with a worked example. (Unit 2)
4. Explain Error Detection with a neat diagram and a suitable example. (Unit 2)
5. Write short notes on IPv4 Addressing. (Unit 3)
6. Compare Subnetting with Distance Vector Routing. When would you prefer one over the other? (Unit 3)
7. Define UDP. Derive or justify the key properties involved. (Unit 4)
8. Compare TCP Connection Management with Quality of Service. When would you prefer one over the other? (Unit 4)
9. Explain DNS with a neat diagram and a suitable example. (Unit 5)
10. What is meant by HTTP? Discuss its advantages and limitations. (Unit 5)
