

OS Unit 4 Previous Year Questions

Operating Systems (OS) · Unit 4 · Memory Management & Virtual Memory · 2023

Questions collected from previous year university examinations (2019–2023).

Part A — Short answer (2 marks)

1. Define Contiguous Allocation. Derive or justify the key properties involved. [2019]
2. Illustrate Paging with a worked example. [2021]
3. Define Translation Lookaside Buffer. Derive or justify the key properties involved. [2020]
4. Define Segmentation. Derive or justify the key properties involved. [2020]

Part B — Long answer (10 marks)

1. Compare Demand Paging with Contiguous Allocation. When would you prefer one over the other? [2019]
2. Define Page Replacement Algorithms. Derive or justify the key properties involved. [2021]
3. Write short notes on Contiguous Allocation. [2020]
4. What is meant by Paging? Discuss its advantages and limitations. [2022]
5. Define Translation Lookaside Buffer. Derive or justify the key properties involved. [2022]
6. Discuss the role of Segmentation in Memory Management & Virtual Memory. [2020]
7. Illustrate Demand Paging with a worked example. [2019]
8. Compare Page Replacement Algorithms with Translation Lookaside Buffer. When would you prefer one over the other? [2020]
9. Illustrate Contiguous Allocation with a worked example. [2023]
10. Define Paging. Derive or justify the key properties involved. [2022]
